

# PM-10 Monitoring Data

DAYS EXCEEDING THE 24-HOUR PM-10 STANDARD  
IN MARICOPA COUNTY

- Notes:
1. Exceedance days are based on data from the EPA Air Quality System (AQS). Exceedance days due to natural events have been removed from the AQS by EPA.
  2. Most of the exceedances before 2004 were recorded by filter-based monitors that measured PM-10 concentrations on every sixth day. Since 2004, the filter-based monitors that exceeded the PM-10 standard have been replaced with monitors that measure PM-10 concentrations every day.
